PPE-Cloth Washable-FACE MASK - Creating Jobs – Helping to Rebuilding the Local Economy

M1 Healthcare Solutions is in the process of converting our office space to support the organizing and training of the unemployed at-home workforce. We have started purchasing all of our materials locally and are focusing on Made in the USA.

The Overall Goal of our initiative is to provide a solution for the at-home unemployed population to generate income for their families.

Cloth Face Masks are relatively simple to manufacture, yet requires a central location that serves as the Sanitizing, Quality Control, Vacuum Packing, Shipping and Management Facility. This is now in operation and can be duplicated in other communities as a part of our M1 Healthcare Solutions organization. Please contact us if you are interested in being a part of this solution or to place an order. doug@m1healthcare.com / 479-754-1503.
